WCA continues to fight remotely for Westchester kids who are especially vulnerable due to the Coronavirus pandemic.

Our 4th eBulletin includes:

- Help us support Homeless/Doubled-up Children & Families protect themselves from COVID-19!
- Calls for release of justice-involved youth as soon as possible
- Where do children stand in the New York State Budget for 2021?
- Westchester's Digital Divide...expands!

Homeless & Doubled-Up Children & Families need a plan of action!

WCA has talked with the County about supporting homeless families. More still needs to be done. Homeless children and families in overcrowded homes and shelters need better options to socially distance and quarantine themselves to protect the children.

You can support this call and spread the word to encourage faster action!
Justice-involved Youth are at greater risk to catch COVID-19!

We join with Raise the Age NY Coalition partners in calling for the release of as many young people as possible from crowded detention centers and sustained connections with family as we must all stay isolated. This is a matter of life and death!

How did Children fare in the NYS2021 State Budget?

WCA advocated for Westchester's children to get support for child care, youth justice, early childhood supports, and more but were children given priority in the rushed State Budget during the rising Coronavirus pandemic?

The Digital Divide in Westchester is
expanding!

Hundreds of students still do not have a computer or access to an adequate internet connection to participate in remote learning. After a month of missed assignments for already disadvantaged students, this disparity has the potential to expand to a general educational gap.
