## EDUCATION

### NOTES

Education data does not include Special Act School Districts, or charter schools. As a result, numbers will differ slightly from NYSED Westchester County totals when applicable.

Data from the US Department of Education, Office for Civil Rights is collected on a biannual basis. NYSED collects data on an annual basis. The data displayed is the most current we have from both sources at this time.

Ratios are calculated by dividing the number of staff employed by position (ex. teachers currently employed, psychologists, social workers, security guards) by the total number of K-12 students enrolled.
